Dear Parent/Guardian,

Re: *Family Education & Training Series*

The *Family Education & Training Series (FET) 2020* is for families of children with developmental disabilities. These programs are provided through funding of the Home and Community Based Waiver schedule.

As defined by the Office for People with Developmental Disabilities (OPWDD), *Family Education & Training* may be provided to families of individuals up to 18 years old who are enrolled in the Home and Community Based Waiver Program. The purpose of FET is to enhance the decision-making capacity of the family unit, provide orientation regarding the nature and impact of developmental disabilities upon the individual and their family, and inform them about service alternatives. Additionally, FET will assist the family unit in understanding and nurturing their child with a developmental disability.

For families who are enrolled in the Home and Community Based Waiver and who have FET listed as a service, FET is funded through OPWDD and will provide up to 2 sessions per year. These classes must be chosen from the enclosed list. People Inc. cannot give credit for classes taken through other agencies.

Wondering how to register? Fill out the form attached at the end of the packet and mail it in FET, 1860 Buffalo Road Rochester NY 14624 or by email at hhakim@people-inc.org. If you need more information, please contact your Care Coordinator.

If there is a FET topic which you would like to see covered, please let us know! We are always interested in new ideas and topics.

Sincerely,

Brittany Richards

A Guided Process to Toileting Training

Presented by Mary Leach
Behavior Intervention Specialist-Assessment

In an effort to help parents with what can be seen as an overwhelming challenge, we have created a guided process to toileting training. We begin the process by observing the child and having the families complete a toileting questionnaire on the child's present level of toileting independence. Preparation of toilet training is a major key to success. Before toilet training begins, we will create together a charting system for the child's current toileting schedule and fluid intake. Families will then be provided with a personalized toileting guide that will walk them through the toileting process for their child.

Dates offered:

Wednesday May 20, 2020 5:00-7:00pm
Wednesday August 19, 2020 5:00-7:00pm
Wednesday October 14, 2020 5:00-7:00pm

This FET is also available by appointment for 1:1 session

Understanding My Diagnosis: Autism Spectrum Disorder

Presented by Mary Leach
Behavior Intervention Specialist-Assessment

This training discusses what Autism Spectrum Disorder is. We will review the behaviors that may be observed by families in relation to an ASD diagnosis. We discuss what they may look like and what strategies may help the family to decrease the behaviors. We also discuss the need for data collection, functional analysis and in some cases behavior plans to be implemented in the home. This training is tailored to families who may have just received an ASD diagnosis and would like to learn more about what to expect.

Dates Offered:

Wednesday June 3, 2020 5:00-7:00pm

Stress and Burnout: Helping Families Make Time for Themselves

Presented by Amber Sarubbi
Behavior Intervention Specialist-Assessment

Caring for an individual with a disability is stressful. This training is intended to educate caregivers on the effects of stress, how this can lead to burnout, and the risks of ignoring stress and burnout. We will work together to identify triggers of stress in their lives, and create a personal plan for coping with stress to prevent burnout.

Dates Offered:
