

VISITORS POLICY

Effective 3/23/20 until further notice

As a precautionary measure reflecting an abundance of caution, and in observance of guidance from the Department of Health, this Visitors Policy is effective at all People Inc. residences*, day programs, office and program* buildings, effective immediately:

No visitors will be allowed into the above locations with the following exceptions:

- People Inc. employees
- Essential contractors
- Deliveries

Families of those supported through residential, day or other programs will not be allowed to enter the above locations, but are encouraged to contact the site management in advance if they wish to arrange to take their loved one home. Families must commit to restricting their loved one to a COVID-19 symptom-free family home indefinitely, and are strongly advised to have no community contact. As a safety precaution, families unable to make this commitment will not be able to take their loved one home during this crisis period.

This policy replaces the previous visitor screening policy, until further notice.

*Exceptions are our Elmwood Health Center, Senior Living and Tax Credit apartment buildings, Family Care homes and Deaf Access Services access to public videophone room.
