Presented by Susan Conners, author and president and founder of the Tourette Syndrome Association of Greater New York State

Saturday, November 1, 2014

8:30 a.m. - 3 p.m.

Museum of disABILITY History

3826 Main Street, Buffalo

(located between Eggert and Bailey, close to the I90 and I290)

Topics

- Criteria for diagnosing Tourette Syndrome
- Associated disorders and their behaviors (ADHD, obsessive compulsive disorder, learning disabilities, fine motor deficits and sensory processing)
- Impact on performance and behavior
- Classroom strategies and techniques
- Introduction to a functional behavioral assessment for children with neurological disorders

Recommended for

- Parents, educators, school administrators and guidance counseling staff
- Special education staff, psychologists and social workers
- Medical, health and human service professionals

Continuing Education Units (CEUs) for occupational, physical and speech therapists and certificates of attendance provided.

About the Presenter

Susan Conners, M.Ed. was a middle school teacher for 33 years and is president and founder of the Tourette Syndrome Association of Greater New York State. She served on the board of directors of National Tourette Syndrome Association for 12 years and was also founder and chairperson of their education committee. Following her retirement from full-time teaching, she was employed as education specialist for national TSA, Inc. for seven years and continues to oversee the chapter and conducts presentations throughout the country. She published the book entitled, *The Tourette Syndrome and OCD Checklist: A Practical Reference for Parents and Educators*.
